

Upgrade to PCC

Developing your true professional self

BA Academy

bossert associates

This course is for coaches who want to upgrade to PCC

Goal of this program is to have you deliver with a great level of inner safety at PCC level, confident around all 8 coaching competencies as defined by ICF.

We will work among experienced coaches with a flexible teaching style focussing mainly on practice and demos as well as group mentoring and supervision. The theory inputs will be customized to the needs of the group and will draw in as needed. An assessment of your coaching recording as well as our live exam in the end will give you prove of your PCC skills.

If you are a very experienced coach and have done a coach training long ago you will love to re-open you habits and work with our senior coach trainers to enrich your style and make it fit the ICF criteria of excellency.

If you have done a full ACSTH program or already have an ACC credential, this program is made for you.

Developing your true professional self

Easy way to PCC credential

The ICF is the leading global institution for coaching credentials. International corporations increasingly demand an internationally recognized coaching certification.

Our school has the highest level of ICF school accreditation, Level 2. A Level 2 diploma offers you the most efficient and reliable access to your personal ICF accreditation. With 500 practice hours plus an online multiple-choice test you can achieve PPC accreditation – the standard of highly professional coaches.

100 hours coaching practice allows you to get ACC credentialed. Your coaching practice hours are counted from the day you began your first coaching education.

Developing your own style

A first coach training often helps us to have clarity on the coaching process and safety on how to work with different goals your client might bring to the session.

However, over time we develop some habits we are not totally happy with and we want to improve. Daring to change is often difficult on paid work.

We offer you a huge field of practice with feedback by very senior coach trainers and the chance to bring your work to the next level.

Your style will be different and will be even more individual and unique once you went through this journey!

A learning community of experienced coaches

We learn best from and with others. The feedback of your peers, all trained coaches, will be a great resource for your learning. You will get inspired by observing different styles and personalities at work.

This group will be hand selected and fulfill our high demands in terms of their coaching skills as they will represent our brand out there in the market and join our over 250 senior coaches, alumni of BA Academy.

We will strive at a certain diversity within the class to enrich your learning with your unique personalities and skill sets.

Our person focused coaching approach

Our coaching approach lifts the situational issue to the personal level.

Coaching at person level enables true personal development. The coachee will not only handle the current situation but grow into mastering future situations.

This approach requires a true interest in the person you are coaching and an extended understanding of inner dynamics.

Our Alumni say ...

“Highly professional school with outstanding trainers, going the extra mile because they personally fully believe what they are doing. In addition to the pure diploma, you get a personal journey with eye-opening experiences that are very valuable. Great process, great personal experience.”
