- ▶ Learn about different psychometric tools and how they are linked!
- ▶ Boost your coaching work by using the tools in the right way.
- ▶ Support your client in the right way to use the insights he/ she gets from the tools

A special offer by the

## Bossert Associates Coaching Academy Masterclass

Our unique setup combines profound know-how about psychometric tools with interactive elements: Actively apply theories about different personality styles and their measurement under supervision and with tips and tricks of an Academy Master Coach and Accredited Practitioner for psychometric tools.

Bossert Associates Coaching Academy is one of the leading coaching schools in Europe and one of the few schools in Europe accredited at the highest ACTP level by the International Coaching Federation ICF.

The Psychometric Tools Masterclass is reserved for coaches who have already successfully completed a professional coaching education programme or are currently enrolled in such.

# Masterclass Psychometric Tools: Overview for coaches

Psychometric tools are a support in self reflection for increased self awareness. They simplify the view on personalities and structure our thinking about ourselves and others.

Like this they can help us to support ourselves in complementing ourselves with others and help us to manage ourselves and the relationships with others.

## This Masterclass course will help you to

- Understand differences and similarities between the most important personality tools
- Understand what these tools can deliver to a coaching of an individual or a group
- Appreciate the value of the tools for individuals, team and organisations.
- See the limitations

## What to expect

This 2-hour virtual workshop with experimental learning elements gives a differentiated view of the most commonly used psychometric tools and their implementation:

- Learn about Jung's 3 fundamental functions
- Compare MBTI, Insights Discovery, DISC, Hogan, VIA Character Strengths and the Gallup Strengths Finder
- Analyse yourself along key psychometric scales as an example
- A combination of theory and interactive exploration in a compact workshop with must-know insights

## Who should attend this course

- Coaches working with organisations applying psychometric tools
- HR Managers wishing to understand what psychometric tools can bring to their HR work
- Coaches who have completed a full coach training or are currently enrolled in such

## Format

- 2-hour interactive virtual workshop
- 6-8 participants

## Price

- €99 per person
